**Q:** How do I get a luminous complexion?

**A:** Before using any makeup to create glowing skin, you have to start with the proper skincare routine. I tell all my customers to use an exfoliator and a mask at least twice a week. Bonnie Holmes Roll-Away Crème, \$60, is the ideal exfoliator because it helps to remove dry, dead skin, and the “roll-away” action helps to boost skin circulation. Astarta makes five different masks, \$37 to \$39, that can be mixed together or used alone to hydrate and moisturize skin. By doing both of these steps, you’re cleansing, hydrating and moisturizing—the three key things your skin needs for an unbelievable complexion.
